CONTENTS

The Effect of Tapioca Flour and Bogor Taro Flour (<i>Colocasia esculenta</i> L. Schott) Formulations on the Chemical, Physical, and Sensory Characteristics of Catfish Sausage (<i>Pangasius hypophtalmus</i>) <i>Leona Amelia, Sussi Astuti, Esa Ghanim Fadhallah, Dyah Koesoemawardani</i>	321-328
Leaf Extract of Kentut (<i>Paederia foetida</i> L.) as a Preventive Measure Against Interleukin-6 Expression in the Liver of Mice in a Sepsis Model Injected with <i>Escherichia coli</i> <i>Lisa Savitri, Maria Do Carmo Da Costa Freitas, Elfred Rinaldo Kasimo, Rochmad Krissanjaya, Syntia Tanu Juwita</i>	329-336
Pharmacophore mapping of Angiotensin Converting Enzymes (ACEs): Insight to Binding Site of ACE1 and ACE2 <i>Navista Sri Octa Ujiantari, Cintya Nurul Apsari</i>	337-341
Potency of Turmeric Extract (<i>Curcuma domestica</i> Val.) with Virgin Coconut Oil (VCO) Against Incision Wound Healing <i>Yusni Atifah, Aifa Kurnia</i>	343-349
Effect of <i>Justicia insularis</i> Leaf Extract and Fractions on Oxidative Stress Markers, Liver Function Parameters and Liver Histology of <i>Plasmodium berghei</i> -Infected Mice <i>Veronica James Enyiekere, Martin Osita Anagboso, Uduak Peter Ise, Grace Emmanuel Essien, Jude Efiom Okokon, Nwakaego Omonigho Ebong</i>	351-359
Isolation and Antibacterial Activity of Sembung (<i>Blumea balsamifera</i>) Leaf Essential Oil L., DC <i>Tika Afriani, Azimatur Rahmi, Mia Darmita Sari</i>	361-365
The Antibacterial and Antibiofilm Efficacy of <i>Citrullus lanatus</i> Rind Ethanol Extract Against <i>Aggregatibacter actinomycetemcomitans</i> <i>Wilbert Alvin Genesis Cokro, Priska Natassya, Sheila Soesanto</i>	367-372
Antibacterial Activity Screening of <i>Bacillus</i> sp. AM12 Associated with Mangrove Soil <i>Evellyne Natania, Anak Agung Gede Indraningrat, Ni Wayan Widhidewi</i>	373-379

Quality Analysis and Anti-termite Activity of Essential Oils from the Leaves, Stems, and Roots of <i>Litsea firma</i> (Blume) Hook F <i>Febrilia Gerina, Rini Muharini, Ira Lestari, Masriani Masriani, Eny Enawaty</i>	381-387
Antimicrobial Activities of Oyster Mushroom (<i>Plerotous ostreatus</i>), Garlic (<i>Allium sativum</i>), and Ginger Extracts (<i>Zingiber officinale</i>) Against Some Clinical Isolates <i>Victoria Oluwapelumi Adenuga, Soji Fakoya, Joseph Adaviruku Sanni, Akinola Adenuga, Ore-ofe Oluwatoyin Adenuga, Oluwaferanmi Timileyhin Ajayi</i>	389-395
<i>Hippocratea africana</i> Ethanol Root Extract and Fractions Attenuate Doxorubicin-Induced Testicular Toxicity and Oxidative Stress <i>Kufre U Noah, Jude E Okokon</i>	397-406
Effectiveness of Ethanol Extract Clove Leaves (<i>Syzygium aromaticum</i>) In Inhibiting Biofilm of <i>Candida Albicans</i> ATCC 14053 <i>Firdausi Nuzula, Masfufatun Masfufatun</i>	407-413
Physicochemical Characteristics of Jelly Candy Cinnamon Powder Koerintji Variation of Red Seaweed Carrageenan Concentration <i>Erwin Setiawan, Rizky Muliani Dwi Ujianti, Iffah Muflihati, Arief Rakhman Affandi</i>	415-421
Effectiveness Test of Methanol, Ethyl Acetate, and Chloroform Fractions of Bidara Leaf Extract (<i>Zizyphus mauritiana</i> L.) on Wound Healing in Rabbits (<i>Oryctolagus cuniculus</i>) <i>Novel Umarella, Wirasti Wirasti, Slamet Slamet, Urmatul Waznah</i>	423-431
Prospecting Marine Natural Products as the Disease-Modifying Treatment of Alzheimer's Diseases <i>Legis Ocktaviana Saputri, Herpan Syafii Harahap, Arina Windri Rivarti, Fitriannisa Faradina Zubaidi</i>	433-441
Phytochemical and Toxicity Analysis of <i>Sonneratia alba</i> Mangrove Leaf Extract using the Brine Shrimp Lethality Test (BSLT) Method <i>Ni Kadek Dewi Asri Tiara Artta, Anak Agung Gede Indraningrat, Made Dharmesti Wijaya</i>	443-448
Antibacterial Activity of Sweet Orange (<i>Citrus sinensis</i>) Peel Tea against Enterobacteriaceae Isolated from a Water Depot <i>Yumiko Yumiko, Suhartomi Suhartomi, Sri Wahyuni Nasution, Siti Syarifah, Ade Pryta R. Simaremare</i>	449-458
The New Technology for In Vitro Culture with Induction of Nanobubbles (NBsN₂ and NBsO₂) in <i>Cattleya</i> sp. <i>Moch Mustakim, Azis Mawardi, Lina Purnama Dewi, Nela Vede Rhofa Putri, Tintrim Rahayu, Gatra Ervi Jayanti</i>	459-465

Detection of Antibacterial Susceptible <i>Salmonella</i> spp. in Cured Beef with Different Shelf-Life Expectancy <i>Mutia Asri Khairunisa, Endah Retnaningrum</i>	467-473
Effect of Mixing Time Variation and Framing Time on the Quality of Coffee Grounds-based Solid Soap <i>Insa Dorra Neisya, Suratno Suratno, Kamalia Fikri</i>	475-483
Histopathological Description of Mouse Liver in a Sepsis Model Infected with <i>Escherichia coli</i> Treated with <i>Paederia foetida</i> L. Leaf Extract for Sepsis Prevention <i>Lisa Savitri, Ana Retnowati, Elfred Rinaldo Kasimo, Rochmad Krissanjaya, Syntia Tanu Juwita</i>	485-492
Effect of <i>Trichosanthes cucumerina</i> Methanol Extract on CRP and Fibrinogen Levels in Diabetic Ulcer Rat Models <i>Nazula Rahma Shafriani, Tri Dyah Astuti, Shofy Farha Aulia Amri, Riski Aditya Permana, Zuvi Fridhoriansyah, Intan Maharani</i>	493-496
Quantitative Analysis, Anti-Inflammatory and Analgesic Effects of Ethanol Leaf Extract and Fractions of <i>Microsorium scolopendria</i> (Burm. f.) Copel. in Mice <i>Uwemedimo Francis Umoh, Ekikere Ezekiel Ubengama, Gina Ramos, Victor Chubueze Onyido</i>	497-503
The Effectiveness of Fragrant Pandan Leaves Ethanol Extract in Reducing Cholesterol Levels In High-Fat Diet-Induced Rats <i>Ni Made Wiasty Sukanty, Farida Ariani, Lina Yunita</i>	505-509
Utilization of Maggot Larvae (<i>Hermetia illucens</i>) for Processing Food Waste at the UIN Raden Intan Lampung Canteen <i>Ika Listiana, Marlina Marlina, Eko Kuswanto, Ade Lenty Hoya</i>	511-516
Formulation and Evaluation of Hard Candy Preparation as an Innovative Internal Wound Medicine from Snakehead Fish (<i>Channa striata</i>) Albumin Extract <i>Ilvid Diana, Elfi Abidah Ardelia, Nazilatun Nadriani, Dilna Azizah, Dea Nova Widhyati, Mohammad Rofik Usman</i>	517-522
Preparation of Ni/Bentonite Acid-Activated using Dragon Fruit Peel Extract (<i>Hylocereus polyrhizus</i>) As a Reductor for One Pot Synthesis of Menthol <i>Yuni Marhayuni, Priyagung Dhemi Widiakongko</i>	523-530

Genotoxic and Cytotoxic Activities of Cornhusk Extract of <i>Zea mays</i> and Leaf Extract of <i>Sacharum officinarum</i> <i>Emem Eyo Akpan, Martin Osita Anagboso, Imoh Imeh Johnny, Nwakaego Omonigho Ebong, Jude Efiom Okokon</i>	531-540
In Vitro Mucolytic Activity of Cardamom Fruit (<i>Amomum compactum</i>) Decoction on Duck Egg Albumens <i>Desy Aryanti Pardilla Vitri, Siti Rahmatul Aini, Legis Ocktaviana Saputri</i>	541-547
Potential of California Variety Papaya Leaf Extract (<i>Carica papaya</i> L. California variety) As Bioherbicide of Snake Grass Weed (<i>Cyperus rotundus</i> L.) <i>Riki Setiawan, Mu'jijah Mu'jijah, Suyamto Suyamto</i>	549-553
Anti –Inflammatory Activity of Propolis <i>Trigona</i> sp. Water Extract from North Lombok with Red Blood Cell Membrane Stability Method <i>Ani Fatin Humaira, Siti Rahmatul Aini, Raisya Hasina</i>	555-558
The Effect of Paracetamol on The Development of Chicken Embryos <i>Hendry Tri Sakti Surya Gunawan Saragih, Alfian Primahesa, Shintia Oktaviana, Agnessia Asian Budi Setyo, Alifia Anisya, Hayu Swari Allimi, Laili Mufli Zusrina, Ruth Liananda Citra Dolok Saribu, Ardaning Nuriliani, Nur Indah Septriani</i>	559-564
Formulation and Effectiveness Test of Red Ginger (<i>Zingiber officinale</i> var. <i>Rubrum</i>) and Starfruit (<i>Averrhoa bilimbi</i> L.) Combination Shampoo Against <i>Pediculus humanus capitis</i> <i>Reza Anindita, Salwa Zhafarina Harahap, Maya Uzia Beandrade, Intan Kurnia Putri</i>	565-573
Identification of Marbofloxacin-Susceptible Bacterial Uropathogens in Feline Urinary Tract Infection of Different Age Groups <i>Sekarani Arifah Udasmara, Endah Retnaningrum</i>	575-584
The Recent Collection of <i>Climacodon roseomaculatus</i> (<i>Hydnum roseomaculatum</i> Henn. & E. Nyman) from The Type Locality (Indonesia) <i>Ivan Permana Putra, Oktan Dwi Nurhayat</i>	585-589
Antibacterial Activity Testing <i>Propionibacterium acnes</i> Combination of 70% Ethanol Extract of Starfruit Leaves (<i>Averrhoa bilimbi</i> L.) and Jarak Pagar Leaves (<i>Jatropha curcas</i> L.) <i>Tarisya Anilya Dwi Putri, Agnes Yuliana, Krismayadi Krismayadi</i>	591-594
Chemical Constituents and Evaluation of Bioactivity of <i>Vernonia hymenolepis</i> A. Rich Root Extracts <i>Alemu Gelata, Mudin Jemal, Soressa Gershe, Negera Abdissa</i>	595-600

**Comparison of Interleukin-1b-511 C/T Polymorphism in Schizophrenia
of Batak and Minangkabau Ethnicities in Pematang Siantar**

*Raysha Awlia Wijaya, Edy Fachrial, I Nyoman Ehrich Lister,
Bayu Ariatama*

601-608

**Modulatory Efficiency of Vitamin C (Ascorbic Acid) on
Collagen-Induced Platelet Aggregation and Dysfunction**

*Osah Martins Onwuka, Chukwukadibie Adigwe, Oghenefego Michael Adheke,
Chamberlin Jamike Elem, Josiah Soipiriala Hart*

GUIDANCE FOR AUTHORS

Aims and Scope *Biology, Medicine, & Natural Product Chemistry*, this journal is published to attract and disseminate innovative and expert findings in the fields of plant, animal, and microorganism secondary metabolite, and also the effect of natural product on biological system as a reference source for researchers in these fields, and with the aim to set international standards in their methodology.

Article types The journal seeks original full-length research papers, reviews, and short communication. Manuscript of original research should be written in no more than 8,000 words (including tables and picture), or proportional with articles in this publication number. Review articles will be accommodated, while, short communication should be written at least 2,000 words, except for pre-study.

Submission The journal accepts online submission, through **OJS website system** and/ or email to the editors at jafarluthfi@yahoo.com. Submitted manuscripts should be the original works of the author(s). The manuscript must be accompanied by a cover letter containing the article title, the first name and last name of all the authors, a paragraph describing the claimed novelty of the findings versus current knowledge. Submission of a manuscript implies that the submitted work has not been published before (except as part of a thesis or report, or abstract); and is not being considered for publication elsewhere. When a manuscript written by a group, all authors should read and approve the final version of the submitted manuscript and its revision; and agree the submission of manuscripts for this journal. All authors should have made substantial contributions to the concept and design of the research, acquisition of the data and its analysis; drafting of the manuscript and correcting of the revision. All authors must be responsible for the quality, accuracy, and ethics of the work.

Ethics Author(s) must obedient to the law and/or ethics in treating the object of research and pay attention to the legality of material sources and intellectual property rights.

Copyright If and when the manuscript is accepted for publication, the author(s) still hold the copyright and retain publishing rights without restrictions. Authors or others are allowed to multiply article as long as not for commercial purposes. For the new invention, authors are suggested to manage its patent before published.

Open access The journal is committed to free-open access that does not charge readers or their institutions for access. Readers are entitled to read, download, copy, distribute, print, search, or link to the full texts of articles, as long as not for commercial purposes. The license type is CC-BY-NC.

Acceptance The only articles written in English (U.S. English) are accepted for publication. Manuscripts will be reviewed by editors and invited reviewers (peer-review) according to their disciplines. Authors will generally be notified of acceptance, rejection, or need for revision within 1 to 2 months of receipt. The manuscript is rejected if the content does not in line with the journal scope, does not meet the standard quality, inappropriate format, complicated grammar, dishonesty (i.e. plagiarism, duplicate publications, fabrication of data, citations manipulation, etc.), or ignoring correspondence in three months. The primary criteria for publication are scientific quality and biodiversity significance. **Uncorrected proofs** will be sent to the corresponding author by email as .doc or .docx files for checking and correcting of typographical errors. To avoid delay in publication, corrected proofs should be returned in 7 days. The accepted papers will be published online in a chronological order at any time, but printed in April and October.

A charge *Biology, Medicine, & Natural Product Chemistry* does not charge APCs, submission charges, or another fee. All processes of article publication are free of charge.

Reprints The sample journal reprint is only available by special request. Additional copies may be purchased when ordering by sending back the uncorrected proofs by email.

Manuscript preparation Manuscript is typed on A4 (210x297 mm²) paper size, in a single column, single space, 10-point (10 pt) Times New Roman font. The margin text is 3 cm from the top, 2 cm from the bottom, and 1.8 cm from the left and right. Smaller lettering size can be applied in presenting table and figure (9 pt). Word processing program or additional software can be used, however, it must be PC compatible and Microsoft Word based (.doc or .rtf or .docx). **Scientific names** of species (incl. subspecies, variety, etc.) should be written in italic, except for italic sentence. Scientific name (genera, species, author), and cultivar or strain should be mentioned completely for the first time mentioning it in the body text, especially for taxonomic manuscripts. Name of genera can be shortened after first mentioning, except generating confusion. Name of the author can be eliminated after first mentioning. For example, *Rhizopus oryzae* L. UICC 524, hereinafter can be written as *R. oryzae* UICC 524. Using trivial name should be avoided, otherwise generating confusion. **Biochemical and chemical nomenclature** should follow the order of the IUPAC - IUB. For DNA sequence, it is better used Courier New font. Symbols of standard chemical and abbreviation of chemistry name can be applied for common and clear used, for example, completely written butilic hydroxyl toluene (BHT) to be BHT hereinafter. **Metric measurement** use IS denomination, usage other system should follow the value of equivalent with the denomination of IS first mentioning. Abbreviations set of, like g, mg, mL, etc. do not follow by dot. Minus index (m⁻², L⁻¹, h⁻¹) suggested to be used, except in things like "perplant" or "per-plot". **Equation of mathematics** does not always can be written down

in one column with text, in that case can be written separately. **Number** one to ten are expressed with words, except if it relates to measurement, while values above them written in number, except in early sentence. The fraction should be expressed in decimal. In the text, it should be used "%" rather than "percent". Avoid expressing ideas with complicated sentence and verbiage, and used efficient and effective sentence.

Title of the article should be written in compact, clear, and informative sentence, preferably not more than 20 words. Name of author(s) should be completely written. **Name and institution** address should also be completely written with street name and number (location), postal code, telephone number, facsimile number, and email address. Manuscript written by a group, author for correspondence along with address is required. First page of the manuscript is used for writing above information.

Abstract should not be more than 200 words. Keywords is about five words, covering scientific and local name (if any), research theme, and special methods which used; and sorted from A to Z. All important **abbreviations** must be defined at their first mention. **Running title** is about five words. **Introduction** is about 400-600 words, covering the background and aims of the research. **Materials and Methods** should emphasize on the procedures and data analysis. **Results and Discussion** should be written as a series of connecting sentences, however, for manuscript with long discussion should be divided into subtitles. Thorough discussion represents the causal effect mainly explains for why and how the results of the research were taken place, and do not only re-express the mentioned results in the form of sentences. **Concluding** sentence should be given at the end of the discussion. **Acknowledgments** are expressed in a brief; all sources of institutional, private and corporate financial support for the work must be fully acknowledged, and any potential conflicts of interest are noted.

Figures and Tables of maximum of three pages should be clearly presented. Title of a picture is written down below the picture, while title of a table is written above the table. Colored figures can only be accepted if the information in the manuscript can lose without those images; chart is preferred to use black and white images. Author could consign any picture or photo for the front cover, although it does not print in the manuscript. All images property of others should be mentioned source. **There is no appendix**, all data or data analysis are incorporated into Results and Discussions. For broad data, it can be displayed on the website as a supplement.

References Author-year citations are required. In the text give the authors name followed by the year of publication and arrange from oldest to newest and from A to Z. In citing an article written by two authors, both of them should be mentioned, however, for three and more authors only the first author is mentioned followed by et al., for example: Saharjo and Nurhayati (2006) or (Boonkerd 2003a, b, c; Sugiyarto 2004; El-Bana and Nijs 2005; Balagadde et al. 2008; Webb et al. 2008). Extent citation as shown with word "*ci*" should be avoided. Reference to unpublished data and personal communication should not appear in the list but should be cited in the text only (e.g., Rifai MA 2007, pers. com. (personal communication); Setyawan AD 2007, unpublished data). In the reference list, the references should be listed in an alphabetical order (better, if only 20 for research papers). Names of journals should be abbreviated. Always use the standard abbreviation of a journal's name according to the **ISSN List of Title Word Abbreviations** (www.issn.org/22661-LTWA-online.php). The following examples are for guidance.
